DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
2. Claims 1 and 2 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
3. Claim 1, line 4, the parenthetical inclusions render the claims indefinite because it is unclear whether the parenthetical inclusions are part of the claimed invention or not, and the resulting claims do not clearly set forth the metes and bounds of the patent protection desired.
4. Claim 1, line 6, the recitation of "possibly with pipes" renders the claim indefinite, since "possibly" would make it unclear whether the limitations following the phrase are part of the claimed invention.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Insofar as understood, claim 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by German reference #38057 to Muller. Muller, see figure 2, discloses a water permeable wall device comprising concrete shafts linked together by holes so as to allow water to flow from one shaft to another.

7. Insofar as understood, claim 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Church #788,885. Church discloses a dam comprising adjacent concrete shafts 13 linked together by pipes 36, wherein water is allowed to flow from one shaft to another.

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
